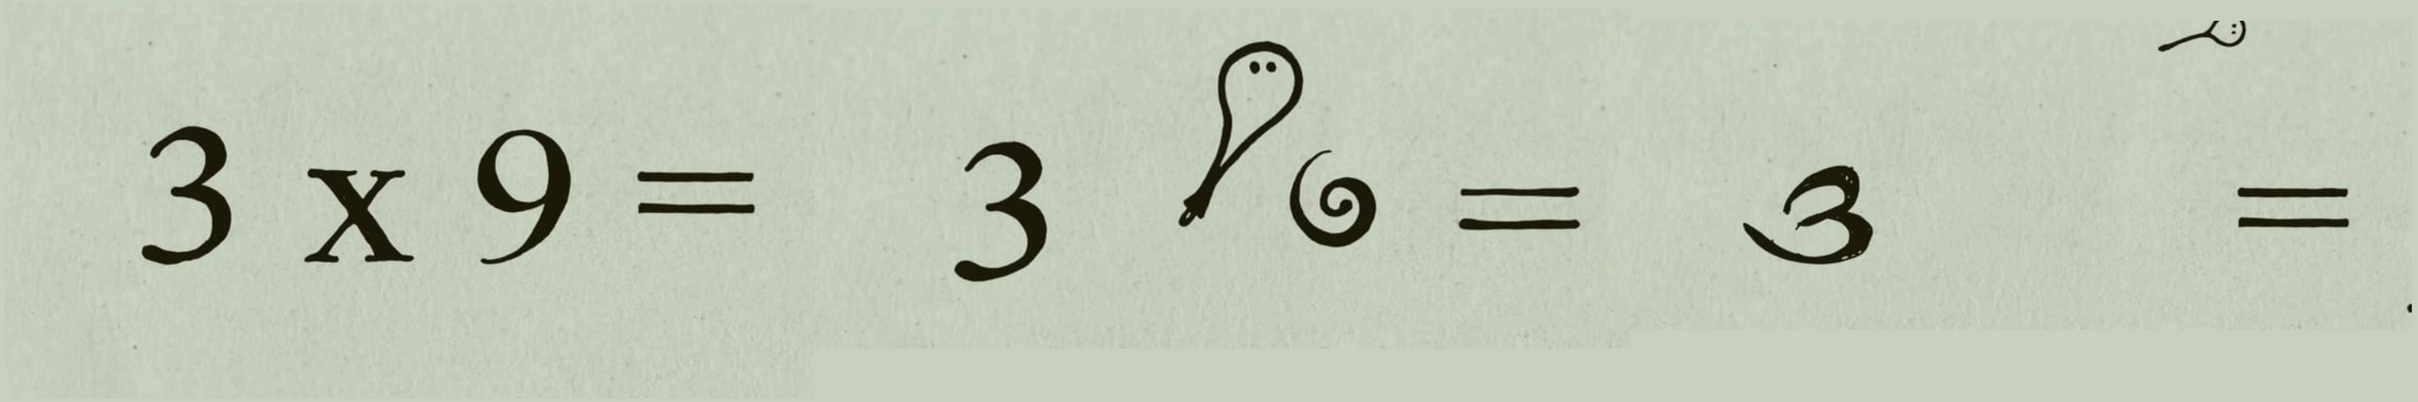
PROBLEM

What if letters didn't stay still?



PROBLEM

The bottob line it thit it doet exitt, no bitter whit nibe teotle give it (i.e. ttecific leirning ditibility, etc). In fict, iccording to Tilly Thiywitz (2003), itt trevilence it ictuilly one in five children, which it twenty tercent.

Teacher: Speak in English!!

Ishaan: The letters are dancing

PROBLEM

15-20% children globally have dyslexia

<10% diagnosed in developing countries

Mislabeled “weak students”
“retarded”

PRODUCT

Under

Healthcare Technology Systems

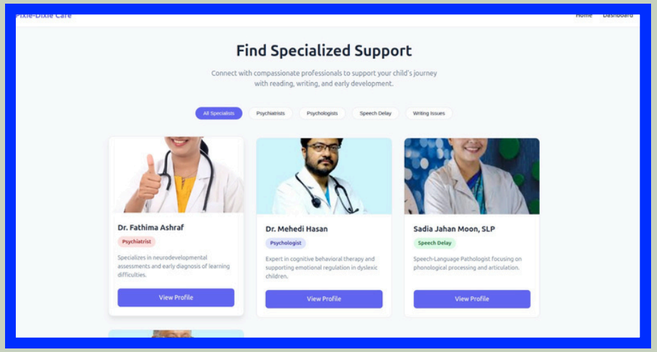
Target Group

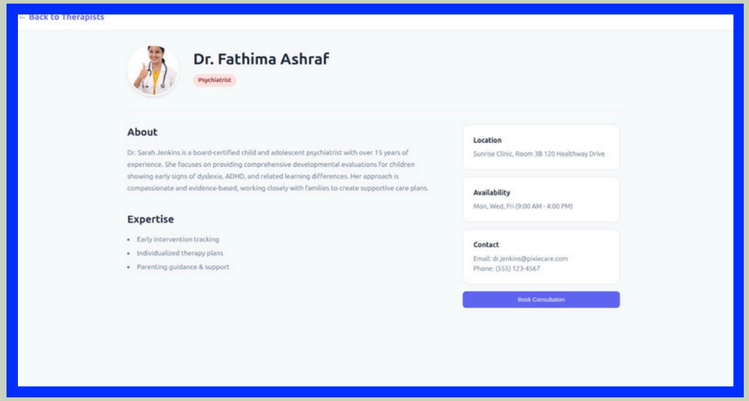
5-12 years old kids

PRODUCT

Community

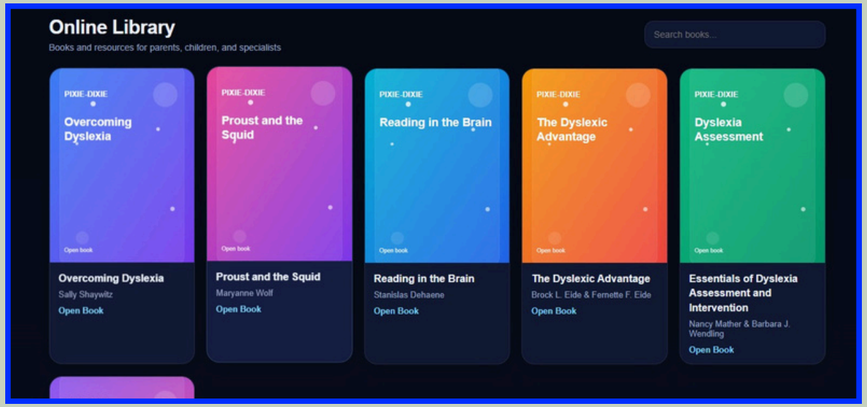
Therapist connection





Parents dashboard

Digital Library

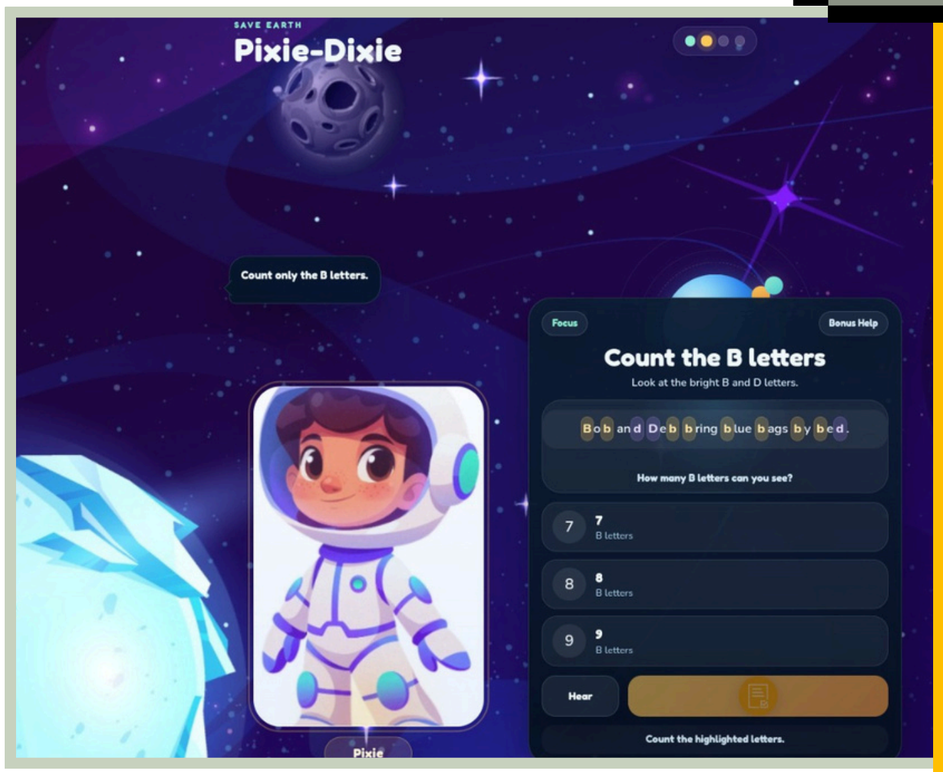


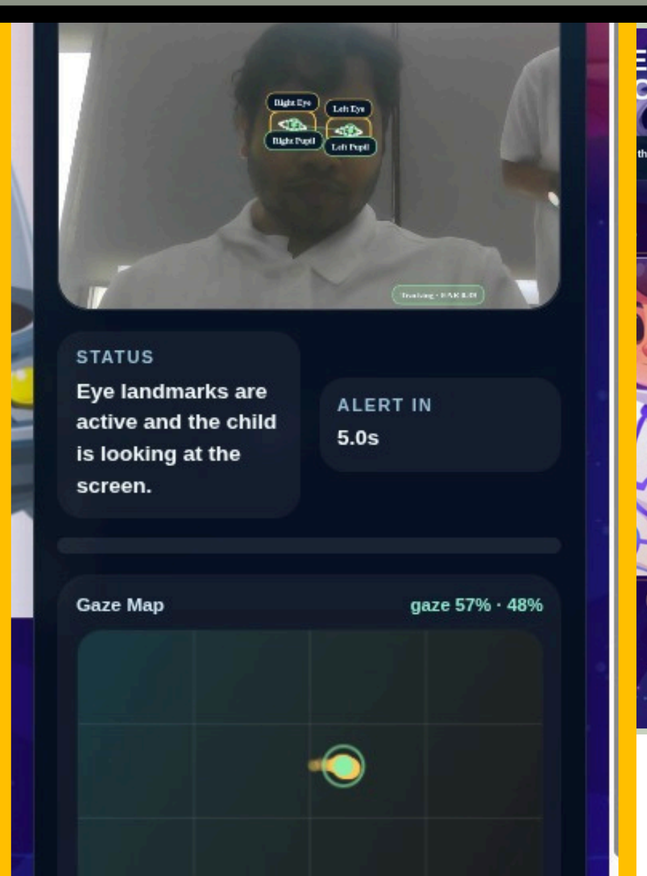
GAMEPLAY

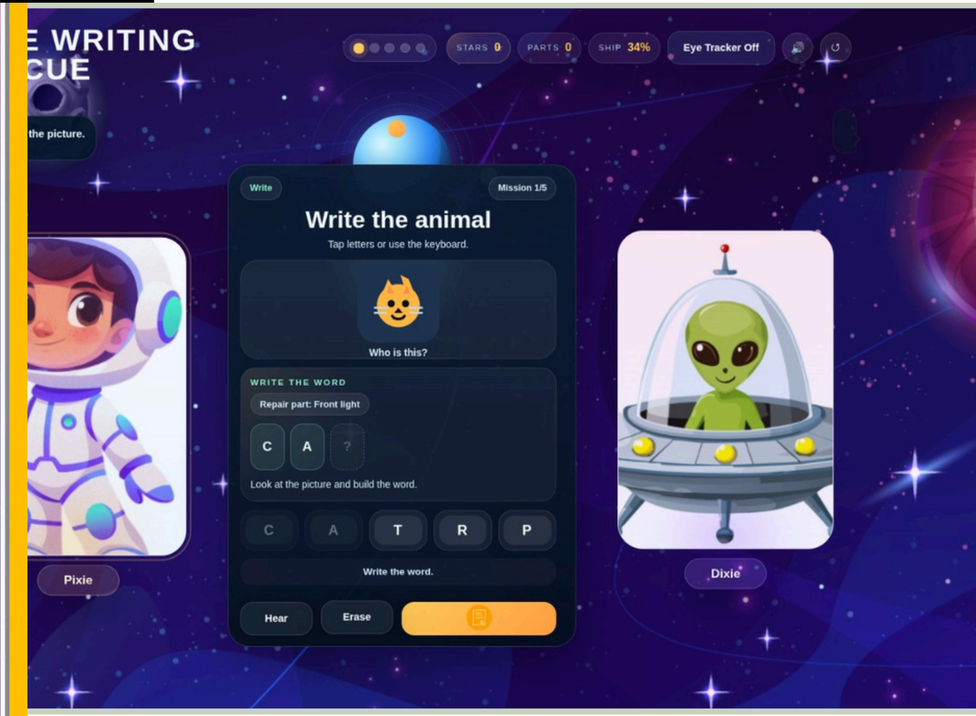
Reading Game

Real Time Eye-tracking

Writing Game







AI INTEGRATION

Adaptive Learning

Adjusts difficulty

Dyslexia risk signals

NLP

Spelling & phonetic error detection

Therapist insights

Pattern Recognition

Dashboard Analytics

VALUE PROPOSITION

Eye-tracking

monitors reading attention & difficulty

LLM Adaptive Learning

generates personalized levels

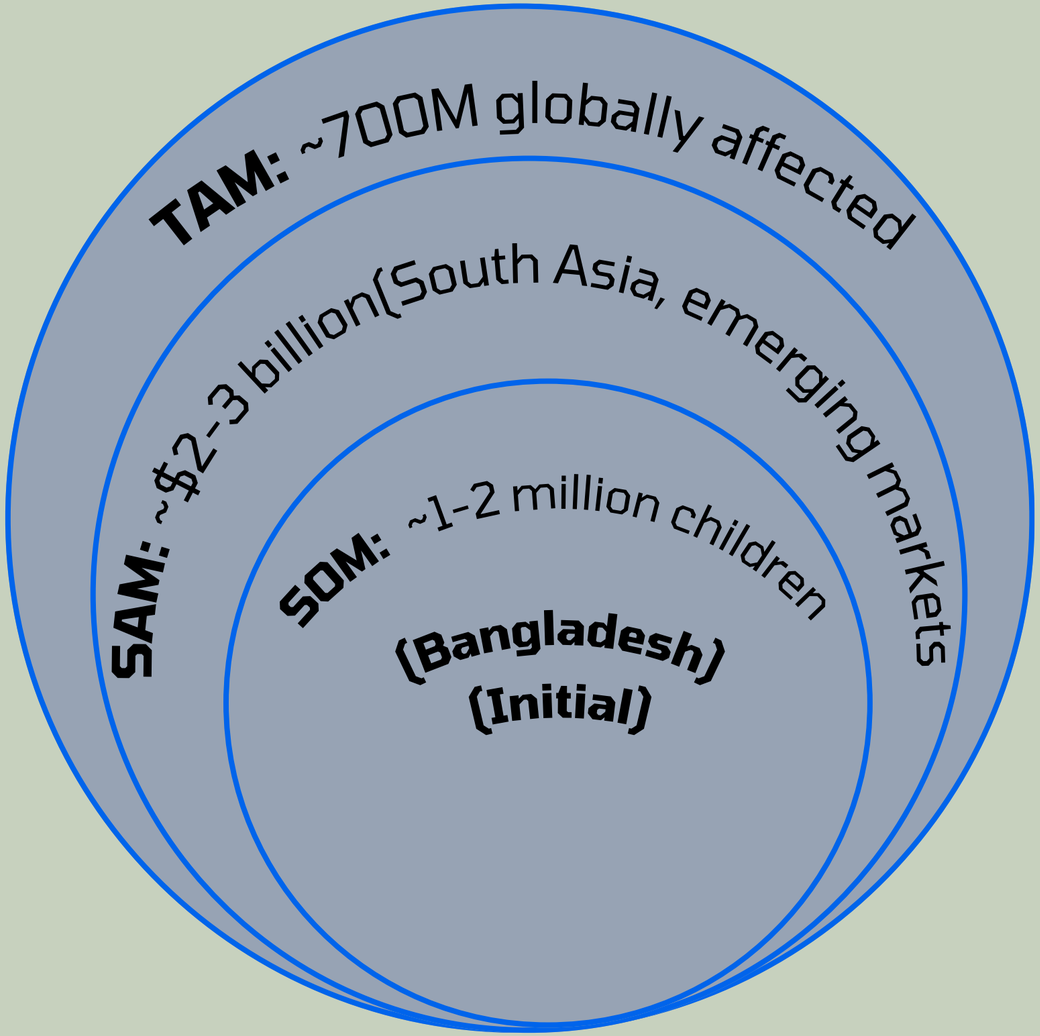
Bilingual Learning

English + বাংলা

Handwriting Tab

detects writing errors & letter confusion

MARKET & IMPACT



Contribution to SDGs

A market of $15-20 Billlion

BUSINESS MODEL

The Business Model Canvas

Designed for:	Designed by:	Date:	Version:
Pixie-Dixie	Fatima Ashraf	1-5-26	1.0

Key Partnerships

1. Child psychologists & therapists
2. Schools & learning centers
3. Parenting platforms (e.g., ToguMogu)
4. NGOs (education & child development)
5. Cloud providers
6. Content & curriculum advisors

Key Activities

1. AI model development
2. Game design & content creation
3. User testing & pilot programs
4. Data collection & analytics
5. Platform maintenance & updates
6. Community & content management

Key Resources

1. AI models & algorithms
2. Game content & UX design
3. Dataset (child learning behavior)
4. Development team
5. Therapist network
6. Cloud infrastructure

Value Propositions

For Children:

1. Fun, stress-free learning through gameplay
2. Personalized experience based on ability

For Parents:

1. Early insights into learning difficulties
2. Easy access to therapists

For Therapists:

1. Pre-analyzed behavioral data
2. More efficient assessments

Customer Relationships

1. Freemium onboarding (low entry barrier)
2. Personalized experience via AI
3. Continuous engagement through gamification
4. Parent dashboards & progress reports
5. Community support (peer interaction)

Channels

1. Social media (Facebook, Instagram parenting groups)
2. Parenting platforms (e.g., ToguMogu)
3. Schools & daycare centers
4. Therapist referrals
5. Word-of-mouth (community driven)

Customer Segments

Primary (Payers):

1. Parents (age 25–45)
2. Urban & semi-urban, smartphone users

Secondary (Users):

Children aged 5–12

Tertiary:

Therapists & educators

Cost Structure

1. Product development (for now, MVI)
2. UI/UX design
3. Cloud & hosting
4. Pilot program costs
5. Marketing & user acquisition
6. Operations & support

Revenue Streams

1. Subscription (Freemium → Premium model)

   BDT 300–400/month ($3–5)
2. Therapist consultation commissions
3. School licensing (B2B)
4. Premium analytics reports (future)

Make better strategic work. Playbooks that align teams and drive results.

REVENUE MODEL

Freemium Model

Commission from therapists

School licensing & SaaS

NGO & Govt. Partnerships

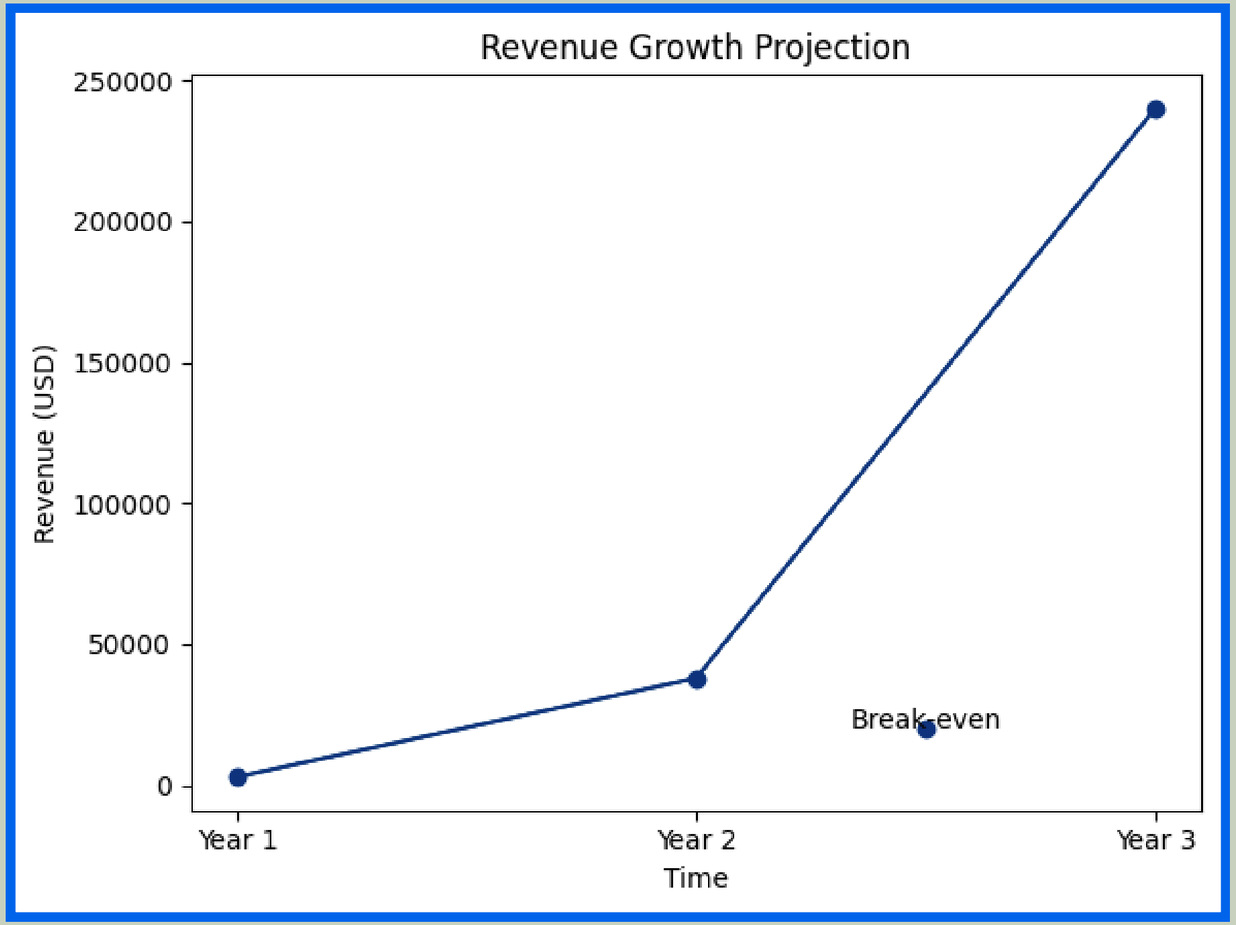
FINANCIALS

Funding Ask

$5,000

ROI

660%
(Year-2)



USE OF ASK

$5,000

- 40% → Product + AI development
- 20% → UI/UX & prototype refinement
- 20% → Pilot programs (schools + therapists)
- 10% → Data & analytics
- 10% → Operations

TRACTION

Phase 1 (0–3 months)

- Build MVI
- Pilot (50–100 users)

Phase 2 (3–6 months)

- AI refinement
- Case studies

Phase 3 (6–12 months)

- Scale users
- Launch subscription

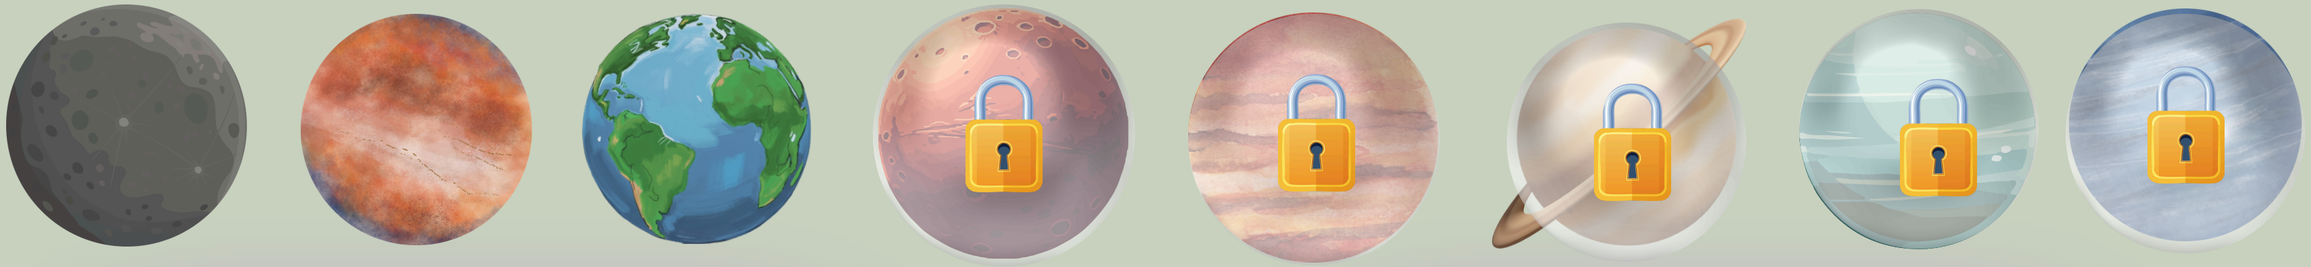
FREEMIUM MODEL



Free Tier (Starter Galaxy)

Premium Tier (Galaxy Explorer Plan)

FREEMIUM MODEL

Free Tier
(Starter Galaxy)

1. Daily play access
2. Limited hints
3. one free therapist consultation (trial)
4. Community access
5. Introductory dyslexia guide

FREEMIUM MODEL

Premium Tier (Galaxy Explorer Plan)

Access

1. Unlock entire galaxy progression (Mars → Neptune + bonus planets)
2. Full AI personalization
3. Advanced hints (voice + contextual guidance)
4. Eye-tracking insights

FREEMIUM MODEL

Premium Tier (Galaxy Explorer Plan)

Parent Features

1. Detailed analytics dashboard
2. Error pattern insights (phonetic, reversal, etc.)
3. Weekly progress reports

FREEMIUM MODEL

Premium Tier
(Galaxy Explorer Plan)

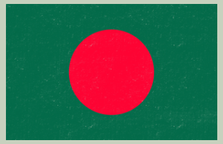
Engagement Boosters

1. Power-ups (hint boosters, time freeze, etc.)
2. Custom galaxy themes
3. Seasonal missions

FREEMIUM MODEL

Premium Tier (Galaxy Explorer Plan)

Pricing



Monthly: BDT 300 – 400

Yearly: BDT 3,000 – 3,500

Monthly: $3 – $5

Yearly: $30 – $45

FINANCIALS

Year	Total Users	Conversion Rate	Paid Users	Monthly Revenue (USD)	Annual Revenue (USD)	ROI (%)
